ClaimPilot Demo Hospital

14 Hospital Road, Bengaluru 560001

Laboratory Report

Patient name: Priya Menon
Patient ID: PAT-0001
Age / **Sex:** 34 / F
Admission ID: ADM-0001
Admission date: 2026-10-12

Details

Test: Complete blood count and abdominal ultrasound
Wbc per ul: 15800
Ultrasound finding: Inflamed, non-compressible appendix, 9 mm diameter

Remarks

The patient's complete blood count showed a white blood cell count of 15,800 cells per microliter, indicating an acute inflammatory response. The abdominal ultrasound revealed an inflamed, non-compressible appendix measuring 9 mm in diameter, consistent with acute appendicitis. These findings support the clinical diagnosis and suggest that surgical intervention may be warranted to prevent complications such as perforation or abscess formation.
