ClaimPilot Demo Hospital

14 Hospital Road, Bengaluru 560001

Laboratory Report

Patient name: Ramesh Iyer
Patient ID: PAT-0002
Age / **Sex:** 58 / M
Admission ID: ADM-0002
Admission date: 2026-10-05

Details

Test: Pre-operative blood work
Haemoglobin g dl: 13.4
Hba1c percent: 5.8

Remarks

The patient's pre-operative hemoglobin level of 13.4 g/dL is within the normal range, indicating adequate oxygen-carrying capacity for surgical procedures. The HbA1c percentage of 5.8% suggests good glycemic control, reducing the risk of postoperative complications related to diabetes mellitus.

Synthetic document generated for the ClaimPilot demo. Not a real patient record.
