ClaimPilot Demo Hospital

14 Hospital Road, Bengaluru 560001

Discharge Summary

Patient name: Ramesh Iyer
Patient ID: PAT-0002
Age / **Sex:** 58 / M
Admission ID: ADM-0002
Admission date: 2026-10-05
Discharge date: 2026-10-09

Details

Diagnosis: Primary osteoarthritis, right knee
ICD-10: M17.1
Reason for admission: End-stage osteoarthritis of the right knee after failed conservative treatment, needing joint replacement
Treatment given: Right total knee replacement
Length of stay days: 4
Condition at discharge: Walking with a walker, wound healthy

Hospital course

The patient was admitted for end-stage osteoarthritis of the right knee following failed conservative treatment. A right total knee replacement was performed to alleviate symptoms and improve mobility. The patient's condition improved postoperatively, and he was discharged on day four walking with a walker and with a healthy surgical wound.
